Exhibit 99.1

Sol-Gel Technologies Reports Second Quarter 2021 Financial Results and Highlights Recent Corporate Developments

- Recently obtained FDA approval of TWYNEO[®] triggers milestone payment from Galderma
- Exclusive license agreements with Galderma for U.S. commercialization of EPSOLAY® and TWYNEO
- Sol-Gel advancing its early-stage pipeline in plaque psoriasis, palmoplantar keratoderma and other high-value dermatologic indications
- FDA action on the NDA for EPSOLAY still pending due to COVID-19-related restrictions
- Generic ivermectin cream, 1% launched by Sol-Gel's partner Perrigo in June

NESS ZIONA, Israel, August 4, 2021 -- Sol-Gel Technologies, Ltd. (NASDAQ: SLGL), a dermatology company focused on identifying, developing and commercializing branded and generic topical drug products for the treatment of skin diseases, today announced financial results for the second quarter ended June 30, 2021 and provided an overview of recent corporate developments.

Second Quarter Corporate Highlights and Recent Developments

- On July 27, 2021, Sol-Gel announced that the U.S. Food and Drug Administration (FDA) approved its first proprietary drug product, TWYNEO[®] (tretinoin and benzoyl peroxide) cream, 0.1%/3%, indicated for the treatment of acne vulgaris in adults and pediatric patients nine years of age and older. This approval triggers a milestone payment from Galderma.
- On June 28, 2021, Sol-Gel announced that it signed two exclusive, 5-year license agreements with Galderma for the commercialization of EPSOLAY® (benzoyl peroxide) cream, 5%, and TWYNEO in the United States. EPSOLAY is under investigation for the treatment of inflammatory lesions of rosacea in adults. In accordance with the terms of these agreements, Sol-Gel received an \$8 million upfront payment in July, \$4 million of which is conditional upon FDA approval of EPSOLAY by the end of 2021. In addition, Sol-Gel is entitled to receive additional regulatory milestone payments of up to \$7 million, \$3.5 million of which is due following the approval of TWYNEO and \$3.5 million of which is payable upon approval of EPSOLAY. Sol-Gel is also eligible to receive tiered double-digit royalties ranging from mid-teen to high-teen percentages of net sales as well as up to \$9 million in sales milestone payments.
- On June 28, 2021, Sol-Gel also announced that the Company was advancing its early-stage topical drug candidates SGT-210 (erlotinib gel) under investigation for the treatment of palmoplantar keratoderma, SGT-310 (tapinarof cream, 1%) and SGT-510 (roflumilast) under investigation for the treatment of plaque psoriasis and other dermatologic indications.
- On April 26, 2021, Sol-Gel received confirmation from the FDA that action on the New Drug Application (NDA) for EPSOLAY had not yet been taken due to the inability of the FDA to conduct a pre-approval inspection of the production site for EPSOLAY because of COVID-19 travel restrictions. The Company maintains ongoing dialogue with the FDA about advancing this NDA approval.

• A generic product, ivermectin cream, 1% was launched by partner Perrigo in June 2021.

Alon Seri-Levy, Ph.D., Co-Founder and Chief Executive Officer, stated, "The approval of TWYNEO solidifies our Company's reputation as a successful drug developer, and we now look forward to a successful launch of TWYNEO in the U.S. by market leader Galderma. We are extremely proud to have entered into a U.S. partnership with Galderma on attractive terms which permit us to regain our products after a five-year period. This partnership creates a maximum growth opportunity for our products while minimizing future cash needs for our company. It also allows us to focus on our innovative early-stage pipeline and is in line with our vision to establish Sol-Gel as a leading topical dermatology company".

Financial Results for the Second Quarter Ended June 30, 2021

Revenue for the second quarter of 2021 was \$0.9 million. The revenue was mainly due to sales of generic products from collaboration arrangements with Perrigo, compared to \$1.1 million for the same period in 2020.

Research and development expenses were \$6.9 million in 2021 compared to \$6.5 million during the same period in 2020. The increase of \$0.4 million was mainly attributed to an increase of \$0.9 million in manufacturing expenses offset by a decrease of \$0.3 million in R&D expenses and a decrease of \$0.2 million in other expenses.

General and administrative expenses were \$2.0 million in 2021 compared to \$2.2 million in 2020. The decrease of \$0.2 million was mainly attributed to a decrease in commercialization expenses.

Sol-Gel reported a loss of \$8.0 million for the second quarter of 2021 compared to loss of \$7.1 million for the same period in 2020.

As of June 30, 2021, Sol-Gel had \$32.1 million in cash, cash equivalents and deposits, and \$6.8 million in marketable securities for a total balance of \$38.9 million. Based on Galderma's expected upfront and milestone payments in accordance with the Galderma agreement, the Company expects that its cash resources will enable funding of operational and capital expenditure requirements into the first quarter of 2023 (assuming timely approval of EPSOLAY in 2021)

About Acne Vulgaris

Acne vulgaris is a common multifactorial skin disease that according to the American Academy of Dermatology affects up to 50 million people in the U.S. The disease occurs most frequently during childhood and adolescence (affecting 80% to 85% of all adolescents) but it may also appear in adults. Acne vulgaris patients suffer from the appearance of lesions on areas of the body with a large concentration of oil glands, such as the face, chest, neck and back. These lesions can be inflamed (papules, pustules, nodules) or non-inflamed (comedones). Acne vulgaris can have a profound effect on the quality of life of those suffering from the disease. In addition to carrying a substantial risk of permanent facial scarring, the appearance of lesions may cause psychological strain, social withdrawal and lowered self-esteem.

About TWYNEO

TWYNEO (tretinoin and benzoyl peroxide) cream, 0.1%/3%, is indicated for the treatment of acne vulgaris in adults and pediatric patients nine years of age and older. TWYNEO is the first acne treatment that contains a fixed-dose combination of benzoyl peroxide and tretinoin. Tretinoin and benzoyl peroxide are widely prescribed separately for acne vulgaris; however, benzoyl peroxide causes degradation of the tretinoin molecule, thereby potentially reducing its effectiveness if used at the same time or combined in the same formulation. The formulation of TWYNEO uses silica (silicon dioxide) core shell structures to separately micro-encapsulate tretinoin crystals and benzoyl peroxide crystals enabling inclusion of the two active ingredients in the cream.

Indications and Usage

TWYNEO is a combination of tretinoin, a retinoid, and benzoyl peroxide indicated for the topical treatment of acne vulgaris in adults and pediatric patients nine years of age and older.

IMPORTANT SAFETY INFORMATION

CONTRAINDICATIONS: History of serious hypersensitivity reaction to benzoyl peroxide or any component of TWYNEO.

WARNINGS AND PRECAUTIONS

- Hypersensitivity: Severe hypersensitivity reactions, including anaphylaxis and angioedema, have been reported with use of benzoyl peroxide products.
- Skin Irritation: Pain, dryness, exfoliation, erythema, and irritation may occur with use of TWYNEO. Avoid application of TWYNEO to cuts, abrasions, eczematous or sunburned skin.
- Photosensitivity: Minimize unprotected exposure to sunlight and sunlamps. Use sunscreen and protective clothing when sun exposure cannot be avoided.

ADVERSE REACTIONS: The most common adverse reactions (incidence \geq 1%) are pain, dryness, exfoliation, erythema, dermatitis, pruritus and irritation (all at the application site).

Please see full Prescribing Information here.

About EPSOLAY

EPSOLAY is an investigational topical cream containing benzoyl peroxide, 5%, for the treatment of inflammatory lesions of rosacea, also known as papulopustular rosacea, in adults. If approved, EPSOLAY has the potential to be the first FDA-approved single-active benzoyl peroxide prescription drug product. The benzoyl peroxide in EPSOLAY is in a solid form that is incorporated into silica-based microcapsules. EPSOLAY is not approved by the FDA and the safety and efficacy have not been established.

About Sol-Gel Technologies

Sol-Gel is a dermatology company focused on identifying, developing and commercializing branded and generic topical drug products for the treatment of skin diseases. Sol-Gel leverages its proprietary microencapsulation technology platform for TWYNEO, which is FDA approved for the treatment of acne vulgaris in adults and pediatric patients nine years of age and older; and EPSOLAY, under investigation for the treatment of inflammatory lesions of rosacea with an NDA filed with the FDA and a PDUFA goal date that was set for April 26, 2021. Action on the NDA for EPSOLAY has not yet been taken due to the inability of the FDA to conduct a pre-approval inspection of the production site of EPSOLAY as a result of COVID-19 travel restrictions. Both product candidates are exclusively licensed for U.S. commercialization with Galderma

The Company's pipeline also includes early-stage topical drug candidates SGT-210 (erlotinib gel) under investigation for the treatment of palmoplantar keratoderma, SGT-310 (tapinarof cream, 1%) and SGT-510 (roflumilast) under investigation for the treatment of plaque psoriasis and other dermatologic indications.

Forward-Looking Statements

This press release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. All statements contained in this press release that do not relate to matters of historical fact should be considered forwardlooking statements, including, but not limited to, statements regarding FDA approval of EPSOLAY and statements regarding the progress on our innovative earlier stage programs. These forward-looking statements include information about possible or assumed future results of our business, financial condition, results of operations, liquidity, plans and objectives. In some cases, you can identify forward-looking statements by terminology such as "believe," "may," "estimate," "continue," "anticipate," "intend," "should," "plan," "expect," "predict," "potential," or the negative of these terms or other similar expressions. Forward-looking statements are based on information we have when those statements are made or our management's current expectation and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. Important factors that could cause such differences include, but are not limited to, the risk of a further delay in receipt of approval, if any, of the NDA for EPSOLAY, the risk that we don't progress on our innovative earlier stage programs, the risk that we will not receive all the financial benefits under the agreements with Galderma, the risk of a delay in the commercial availability of EPSOLAY and/or TWYNEO, the risk that EPSOLAY and TWYNEO will not provide treatment to the number of patients anticipated, risks relating to the effects of COVID-19 (coronavirus) as well as the following factors: (i) the adequacy of our financial and other resources, particularly in light of our history of recurring losses and the uncertainty regarding the adequacy of our liquidity to pursue our complete business objectives; (ii) our ability to complete the development of our product candidates; (iii) our ability to find suitable co-development partners; (iv) our ability to obtain and maintain regulatory approvals for our product candidates in our target markets, the potential delay in receiving such regulatory approvals and the possibility of adverse regulatory or legal actions relating to our product candidates even if regulatory approval is obtained; (v) our ability to commercialize our pharmaceutical product candidates; (vi) our ability to obtain and maintain adequate protection of our intellectual property; (vii) our ability to manufacture our product candidates in commercial quantities, at an adequate quality or at an acceptable cost; (viii) our ability to establish adequate sales, marketing and distribution channels; (ix) acceptance of our product candidates by healthcare professionals and patients; (x) the possibility that we may face third-party claims of intellectual property infringement; (xi) the timing and results of clinical trials that we may conduct or that our competitors and others may conduct relating to our or their products; (xii) intense competition in our industry, with competitors having substantially greater financial, technological, research and development, regulatory and clinical, manufacturing, marketing and sales, distribution and personnel resources than we do; (xiii) potential product liability claims; (xiv) potential adverse federal, state and local government regulation in the United States, Europe or Israel; and (xv) loss or retirement of key executives and research scientists. These and other important factors discussed in the Company's Annual Report on Form 20-F filed with the Securities and Exchange Commission ("SEC") on March 4, 2021 and our other reports filed with the SEC could cause actual results to differ materially from those indicated by the forward-looking statements made in this press release. Any such forward-looking statements represent management's estimates as of the date of this press release. Except as required by law, we undertake no obligation to update publicly any forward-looking statements after the date of this press release to conform these statements.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(U.S. dollars in thousands, except share and per share data)

(Unaudited)

NOTE 1 - NATURE OF OPERATIONS

Sol-Gel Technologies Ltd. (collectively with its U.S. subsidiary, the Company) is an Israeli Company incorporated in 1997.

The Company is a clinical stage specialty pharmaceutical company focused on developing and commercializing topical dermatological drug products. The Company's lead product candidates are based upon its proprietary microencapsulation delivery system, consisting of microcapsules made of precipitated silica. The most advanced investigational drugs in the Company's product pipeline are: (i) Twyneo®, which is developed for the treatment of acne vulgaris and (ii) Epsolay®, a potential treatment for subtype II rosacea. The New Drug Application ("NDA") for Twyneo® was accepted by the U.S. Food and Drug Administration (the "FDA"), which assigned a Prescription Drug User Fee Act ("PDUFA") goal date of August 1, 2021. The NDA for Epsolay® was accepted by the FDA, which assigned a PDUFA goal date of April 26, 2021. On such PDUFA goal date, the Company received confirmation from the FDA that action on the NDA could not be taken since a pre-approval inspection of the production site of Epsolay® still needs to be conducted. In June 2021, the Company entered into two exclusive license agreements with a third party for the commercialization of Twyneo®, see note 9. In addition to the novel product candidates, the Company's products include the generic products Acyclovir, Ivermectin and other generic product candidates.

Risk and Uncertainties

Since incorporation through June 30, 2021, the Company has an accumulated deficit of \$193,459 and its activities have been funded mainly by its shareholders and collaboration revenues, see also Notes 4 and 5. The Company expects to continue to incur significant research and development and other costs related to its ongoing operations. In June 2021, the Company entered into two exclusive license agreements with a third party for the commercialization of two of the Company's most advanced investigational drug products in the United States including upfront and milestone payments and related royalties, see note 5.

In addition, management is continuing to analyze cash resources and considering raising additional funding from different sources, such as corporate collaborations, public or private equity offerings and/or debt financings, and/or selling shares under the Company's Open Market Sale Agreement with Jefferies LLC. Management expects that the Company's cash and cash equivalents, deposits and marketable securities as of June 30, 2021 will allow the Company to fund its operating plan through at least the next 12 months from the condensed financial statement issuance date.

The Company is subject to risks and uncertainties as a result of the COVID-19 pandemic.

The full extent to which the COVID-19 pandemic will directly or indirectly impact the Company's business, results of operations and financial condition, including revenues from collaboration arrangements, expenses, reserves and allowances, manufacturing, supply, regulatory approvals, clinical trials, commercial launch of branded and generic product candidates, research and development costs and employee-related amounts, will depend on future developments that are highly uncertain and cannot be predicted. The Company continues to monitor and assess new information related to the COVID-19 pandemic, the actions taken to contain or treat COVID-19, as well as the economic impact on various markets.

Furthermore, the estimation process required to prepare the Company's consolidated financial statements requires assumptions to be made about future events and conditions and the impact of COVID-19 on its financial results, and while management believes such assumptions are reasonable, they are inherently subjective and uncertain. The Company's actual results could differ materially from those estimates.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES:

a. Basis of Presentation

The unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim financial statements. Accordingly, they do not include all of the information and notes required by U.S. GAAP for annual financial statements. In the opinion of management, these unaudited condensed consolidated financial statements reflect all adjustments, which include normal recurring adjustments, necessary for a fair statement of the Company's consolidated financial position as of June 30, 2021, the consolidated results of operations and the statements of changes in shareholders' equity for the six month and three month periods ended June 30, 2020 and 2021 and the statements of cash flows for the six month period ended June 30, 2020 and 2021.

The consolidated results for the six month period ended June 30, 2021 are not necessarily indicative of the results to be expected for the year ending December 31, 2021.

These unaudited condensed consolidated financial statements should be read in conjunction with the audited financial statements of the Company for the year ended December 31, 2020. The comparative balance sheet at December 31, 2020 has been derived from the audited financial statements at that date but does not include all disclosures required by U.S. GAAP.

b. Loss per share

Basic loss per share is computed on the basis of the net loss for the period divided by the weighted average number of ordinary shares outstanding during the period. Diluted loss per share is based upon the weighted average number of ordinary shares and of potential ordinary shares outstanding when dilutive. Potential ordinary shares equivalents include outstanding stock options, restricted shares and warrants, which are included under the treasury stock method when dilutive. The calculation of diluted loss per share does not include 3,437,843 and 3,463,710 options, restricted shares and warrants for the six and three months ended June 30, 2021 and 1,244,731 and 1,197,028 options and restricted shares for the six and the three months ended June 30, 2020, respectively, because the effect would be anti-dilutive.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(U.S. dollars in thousands, except share and per share data)

(Unaudited)

NOTE 3 - MARKETABLE SECURITIES:

The following table sets forth the Company's marketable securities for the indicated periods:

	December 31, 2020		une 30, 2021
Level 2 securities:			
U.S government and agency bonds	\$ 4,192	\$	2,716
Canada government bonds	-		-
Other foreign government bonds	2,006		-
Corporate bonds*	15,454		4,114
Total	\$ 21,652	\$	6,830

* Investments in Corporate bonds rated A or higher.

The Company's debt securities are classified within Level 2 because it uses quoted market prices or alternative pricing sources and models utilizing market observable inputs to determine their fair value.

The table below sets forth a summary of the changes in the fair value of the Company's marketable securities for the indicated periods:

	Marketable securities			
	For the year ended December 31, 2020		or the Six Months ed June 30, 2021	
Balance at beginning of the period	\$ 40,966	\$	21,652	
Additions	32,322		4,065	
Sale or maturity	(51,498)		(18,946)	
Changes in fair value during the period	(138)		59	
Balance at end of the period	\$ 21,652	\$	6,830	

As of June 30, 2021, the Company's debt securities had the following maturity dates:

	Market value
	June 30, 2021
Due within one year	6,830

The carrying amount of the cash and cash equivalents, bank deposits, restricted cash, restricted long term deposits, accrued expenses and other liabilities approximates their fair value.

(U.S. dollars in thousands, except share and per share data)

(Unaudited)

NOTE 4 - COLLABORATION AGREEMENTS:

- **a.** In 2007, the Company granted rights to a third party for use and commercialization of a product for skin protection. Under this agreement, the Company is entitled to royalties during the years 2016 to 2024. Based on current sales, royalties are not material.
- b. In 2016 through 2021, the Company entered into several collaboration agreements with two third parties for the development, manufacturing and commercialization of several product candidates. Under the agreements, the third parties are obligated to conduct regulatory, scientific, clinical and technical activities necessary to develop the product and prepare and file ANDA, with the FDA and gain regulatory approval. The Company participates in the development of the product candidates, including participation in joint steering committees and is obligated for sourcing the active pharmaceutical ingredient (API) during the development phase.

Upon FDA approval, the third parties have exclusive rights and are required to use diligent efforts to commercialize these products in territories defined under the agreements, including all required sales, marketing and distributing activities associated with the agreements. The Company is entitled to 50% of the third parties' gross profits related to the sale of these products, as such term is defined in the agreements.

During the six and three months ended June 30, 2021, respectively, the Company recognized revenues from royalties related to sales of two generic products in the U.S. under these agreements in the amount of \$1,582 and \$904.

The Agreements are considered to be within the scope of ASC 808, as the parties are active participants and exposed to the risks and rewards of the collaborative activity.

The Company recognizes collaboration revenue when the related sales occur.

NOTE 5 - LICENSE AGREEMENTS:

In June 2021, the Company entered into two exclusive license agreements with a third party for the commercialization of two of the Company most advanced investigational drug products (Twyneo® and Epsolay®) in the United States. The Company is entitled to up to \$7.5 million per product in upfront payments and regulatory approval milestone payments assuming 2021 approval of each respective product. The Company is also eligible to receive tiered double-digit royalties ranging from mid-teen to high-teen percentage of net sales as well as up to \$9 million in sales milestone payments. According to the agreement, the Company has an option to regain commercialization rights five years following first commercialization. Subsequent to June 30, 2021, the Company received \$4 million per product of upfront payments, which are refundable if FDA approval for each respective product is not received by December 31, 2021. As to FDA approval, received subsequent to June 30, 2021, with respect to Twyneo® , see note 9.

NOTE 6 - COMMITMENTS:

In June 2021, the Company entered into a new agreement with a third party for the commercialization of a product candidate. According to the agreement the Company shall receive from the third party an upfront payment of \$1,250 and additional milestone payments in the future. In connection with the development of the product candidate, the Company is expected to sign an agreement with another third party. Both third parties are expected to sign a manufacture and supply agreement. In case either the development and/or supply agreements will not be executed during the 3rd quarter of 2021, the Company shall be required to refund the third party with the aforementioned upfront payment. In July 2021, the Company received the upfront payment.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(U.S. dollars in thousands, except share and per share data)

(Unaudited)

NOTE 7 – SHARE CAPITAL:

Options grants

During the six months ended June 30, 2021, the Company granted 248,600 options to employees and directors:

- i. In January 2021 and March 2021, the Company granted a total of 20,000 options and 3,600 options, respectively, to several employees to purchase ordinary shares at an exercise price of \$10.44 and \$9.93 per share, respectively. The options vest over a period of 4 years; one quarter of the options vest on the first anniversary of the vesting commencement date (as described in each agreement) and the rest vest quarterly over the following three years. The options expire on the tenth anniversary of their grant date.
- ii. In February 2021, the Company granted a total of 225,000 options to several directors to purchase ordinary shares at an exercise price of \$10.02 per share. The options vest over a period of 3 years; one third of the options vest on the first anniversary of the vesting commencement date (as described in each agreement) and the rest vest quarterly over the following two years. The options expire on the tenth anniversary of their grant date.

The fair value of options granted in 2021 was \$1,061. The underlying data used for computing the fair value of the options are as follows:

	2021
Value of one ordinary share	\$9.56-\$10.44
Dividend yield	0%
Expected volatility	59.52%-70.48%
Risk-free interest rate	0.55%-1.14%
Expected term	3.25-7 years

Ordinary shares

On February 19, 2020, the Company completed an underwritten public offering, in which it issued 2,091,907 ordinary shares and 2,091,907 warrants to purchase up to 1,673,525 ordinary shares, at a public offering price of \$11.00 per ordinary shares for total proceeds, net of issuance costs of approximately \$21,306. The warrants are exercisable over a six-years period from the date of issuance at a per share exercise price of \$14, subject to certain adjustments as defined in the agreement.

In addition and in parallel to the public offering, the Company completed private placement with its controlling shareholder for an additional investment of approximately \$5,000 in consideration of 454,628 ordinary shares and 454,628 warrants to purchase up to 363,702 ordinary shares, at the same terms of the underwritten public offering mentioned above.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(U.S. dollars in thousands, except share and per share data)

(Unaudited)

NOTE 8 - RELATED PARTIES:

- **a.** Related parties include the controlling shareholder and companies under his control, the board of directors and the executive officers of the Company.
- **b.** As to the private placement with the controlling shareholder, see note 7.

NOTE 9 – SUBSEQUENT EVENT:

- i. On July 27, 2021, the Company announced that the FDA approved the Company's first proprietary drug product, Twyneo® . The Company expects to receive a regulatory milestone payment in conjunction with this approval under the exclusive license executed in June 2021 related to the commercialization of Twyneo® and retains the option to regain U.S. commercialization rights five years following first commercialization in the U.S. FDA approval of Twyneo®.
- **ii.** In July 2021, the Company received the upfront payment related to a new agreement with a third party for the commercialization of a product candidate, see Note 6.
